

# PRODUCT DATASHEET - INTELLIGENT MANUAL CALL POINT

## INTELLI-SENSE

Addressable Device

TI-002226

### DESCRIPTION

The 002226 Manual Call Point is compatible with all fire control panels utilising the fully digital communication protocol. The call point is smooth and quick to install thanks to the easy wiring design and the front operating element that snaps into place requiring no additional tools.

The call point benefits from improved levels of visibility thanks to a reflective polyester flag at the bottom of the operating face and a brightly illuminated LED ring in the centre of the active area which allows the alarm condition to be viewed over a wide angle of 170 degrees. The alarm flag indicator can be easily reset using the call point key provided, making the call point ready for immediate re-use.

### KEY FEATURES

- Full panel back compatibility
- Employs fully digital communication protocol
- Built-in short circuit isolator
- High visibility of the alarm condition through LED indication
- Resettable operating element
- Cable entry dimple for drilling
- Waterproof variant available
- Optional protective cover
- Multiple colours variants available (yellow, white, green, blue)\*
- 1 years product warranty

\*The yellow, white, green & blue colour variants are not EN54-11 compliant

### TECHNICAL SPECIFICATION

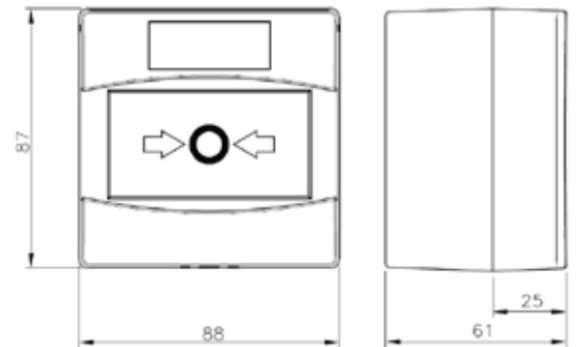

Loop voltage range	18 to 40Vdc*
Average Standby Current	35µA @ 24Vdc
Dimensions	88mm x 87mm x 61mm
Weight	160g
Temperature Range (no icing)	-10°C to +55°C
Max tolerated humidity (non condensing)	93% RH
IP Rating	42

\*Note: Min 18VDC for operation of LED.

### STANDARDS & APPROVALS

BS EN54-11:	Manual Call Points
BS EN54-17:	Short Circuit Isolators

# PRODUCT DATASHEET - INTELLIGENT MANUAL CALL POINT

## INTELLI-SENSE

Addressable Device

### VARIANTS

#### WEATHERPROOF ADDRESSABLE MANUAL CALL POINT\*

The TI-002226 Intelli-Sense manual call point can be made weatherproof by using TI-002227 Weatherproof housing. Thus it will be suitable for conditions such as rain, high humidity or dusty environment.

\*Note: Min 18VDC for operation of LED.

### ACCESSORIES

#### PROTECTIVE CALL POINT COVER

The Protective Call Point Cover is an aesthetically pleasing low cost clear cover.

Easily fitted to CFX-Plus Call Points, it dramatically reduces both misuse and the risk of accidental activation making it ideal for sports halls, manufacturing and processing facilities, and other high traffic areas.

In addition, the protective Call Point Cover ensures that two positive actions are required to activate the Call Point, making it suitable for territories where dual-activation is mandatory.
